(2021)

PRODUCT TYPE

AIR FILTER
Prevents contaminated air from being mixed with the fuel before entering the combustion chamber.

CABIN AIR FILTER
Protects passenger from airborne contaminants, such as virus, bacteria, pollen, dust, and smog.

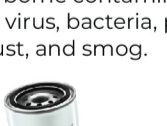

RACING AIR FILTER
Provides the highest specification to increase engine performance (horse power and torque).

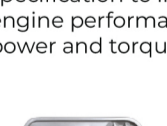

OIL FILTER
Filters clean lubricant oil in the engine, thus reducing premature wear and tear in all frictional parts.

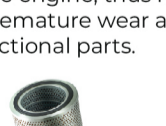

FUEL FILTER
Keeps the fuel system clean that will prolong the life span of the injector and maintain higher fuel efficiency.

FUEL/WATER SEPARATOR
Removes water contamination to ensure clean fuel delivered to the engine.

TRANSMISSION FILTER
Keeps the transmission fluid clean to get great torque, run smoothly, and function more reliably.

HYDRAULIC FILTER
Protects and prolong the life span by keeping the hydraulic system clean.

COOLANT FILTER
Protects the cooling system against corrosion.

AIR/OIL SEPARATOR
Removes residual oil from the air on the outline of compressor to enhance machine life.

EDM FILTER
Optimizes performance of the wire-cut machine system.

HVAC & AIR PURIFIER FILTER
Removes harmful particles & microscopic pollutants to keep your indoor environment a clean & healthy place.

FILTERS FOR HYBRID/ELECTRIC VEHICLE
Electric vehicles (EVs) are gaining popularity worldwide. SAKURA FILTER has launched replacement filters used in EVs that protect the health of the passengers and battery performance.

Cabin Air Filter : Removes contaminants and pollutants inside the electric vehicle to achieve more comfortable experience with maximum health protection.

Battery Cooling Air Filter : Protects the high-voltage battery system against foreign particles and overheating.
